

The Baltic Exchange & FFA Brokers Association present

Tanker Derivatives Forum

The Baltic Exchange, London, 17 November 2011

The Baltic Exchange and FFA Brokers' Association invite tanker owners, charterers, traders and brokers to an afternoon of discussion and an evening of networking.

The Tanker Derivatives Forum is a unique opportunity for the tanker FFA market to meet and discuss the development of this market place. This year we have lined up a panel of experts from shipowning, ship broking and chartering companies to give an overview of the key challenges facing this sector. How can liquidity be increased? What are the prospects for the tanker sector and how will this affect freight derivative trading? What can the Baltic Exchange do to support volume growth?

This free programme is open to all members of the Baltic Exchange and principals trading, or looking to trade, FFAs. The forum takes place at the Baltic Exchange (38 St Mary Axe, London EC3A 8BH) and will be followed by drinks and dinner at Kenza.
