12. FBX26 Europe to South America West Coast

Freightos Baltic Global Container Index

Over 1.85 billion data points.

An index is only as good as its data.

Aggregated across commercial rates managed by Freightos, the FBX provides a uniquely data-driven pulse of the state of the container freight market.

These are CY/CY 40' buyside FAK rates, valid at the time of index production. Unlike other indices, we rely on data, not polling.

Daily pricing.

The freight market is agile, just like your supply chain. Stay up to date with real-time rates, published daily at 12 noon UTC, helping you better track the spot market, with an accurate snapshot of the market today.

Measure if your price is competitive.

Now available for index-linked contract negotiation, market intelligence and deep data analysis to guide supply chain critical decision making.

Verified by the Baltic Exchange.

The Baltic Exchange ensures its market benchmarks are produced in accordance with rules that ensure their accuracy, integrity, continuity and reliability.

The FBX is produced in accordance with the IOSCO Principles and the methodology is clearly documented in the Baltic's FBX Guide to Freightos Baltic Global Container Index.

The Baltic Exchange.

The Baltic Exchange is the pre-eminent provider of global freight benchmarks, widely used as the settlement mechanism in many shipping markets for billions of dollars-worth of freight transactions.

With 30 years of experience in the field, it ensures its market benchmarks are compliant with the Principles for Financial Benchmarks issued by the International Organisation of Securities Commissions (IOSCO), and the European Benchmark Regulation issued by the European Securities and Markets Authority (ESMA).

For the container market, it provides robust governance and auditing methodology for the Freightos Baltic Container Index (FBX) and so safeguards the accuracy and integrity of FBX and the FBX determination process.

The Freightos Group.

The Freightos Group® makes global trade frictionless by digitising freight. Importers and exporters use Freightos.com, the largest international freight marketplace, to reduce spend and save time with real-time comparison, booking and management of shipments from top providers.

WebCargo by Freightos digitises sales for carriers and providers with rate management, instant pricing, and eBookings for 1,800 logistics providers and 330 airlines. Freightos also leverages global freight data to drive industry insights with tools like the daily Freightos Baltic Index.

Founded by serial entrepreneur Zvi Schreiber has offices globally and has raised \$94 million from leading venture funds, including GE Ventures.
