ADVANCED FREIGHT MODELLING & TRADING

SHIP FINANCE EXECUTIVE

SHIPPING ECONOMICS & INVESTMENT

Our word our bond

Overview

The Baltic Exchange runs a series of professional training courses through its Academy. These are designed to help shipping, commodity and finance executives build on their knowledge of the maritime markets.

Hosted on a dedicated Moodle learning platform, each course contains 13-15 hours of videos, case studies and exercises. Delegates are provided with 180 days of access during which period they can join a series of live webinars to discuss course topics in greater depth.

The courses are led by experts and deliver a high level of education, combining theory with real-life practical examples and case studies. By taking these courses, participants will learn skills which they can use in their day-to-day business.

Comprehensive, downloadable study notes are provided, together with a certificate of attendance.

Shipping Economics & Investment

Ship Finance Executive

Quality academic and professional training in shipping finance, tailored to the needs of market executives. The course covers both traditional sources of ship finance such as bank debt and more contemporary approaches including leasing, preferred shares and private equity. It also discusses extensively current developments in green and sustainability finance.

It provides an in-depth analysis of the ship finance market with a focus on capital markets. The course leaders discuss important issues surrounding the IPO and debt issuance process; the advantages and disadvantages of tapping the capital markets; the underwriters and their role; credit rating agencies; institutional investors; risk management of vessel portfolios and shipping sentiment.

- 14 hours of video content
- 6 live webinars
- Supporting notes
- Sources of Funds for Shipping Companies
- Green and Sustainable Finance for Shipping
- Valuing Shipping Companies
- Pricing and Analysing Shipping IPOs
- Investing in Shipping Bonds and Equities
- Valuing Ships and Calculating the Affordability of Shipping Loans
- Analysing Performance of Shipping Companies
- Investment Timing and Predictability of Shipping Market Cycles
